

The Notification states that the "Sequence Listing" in computer readable form does not comply with the requirements of 37 C.F.R. 1.821-1.825. The computer readable form has been found to be damaged and/or unreadable. In particular, the field <223> description is missing or inadequate as indicated on the marked up "Raw Sequence Listing." Applicants have amended and updated the sequence listing as requested.

In response to the Notification, Applicants submit the following items:

1. A substitute computer readable form (CRF) of the Sequence Listing;
2. A substitute paper copy of the Sequence Listing;
3. Statements as required under 37 C.F.R. 1.821 (f), (g) and (h);
4. A return copy of the notice to comply; and
5. An itemized postcard.

#### **AMENDMENT**

IN THE SPECIFICATION:

Please substitute the enclosed paper copy of the Sequence Listing for the previously filed Sequence Listing of February 8, 2002. The substitute Sequence Listing corrects the minor errors in the <223> field as described in the Notification. The substitute paper copy of the Sequence Listing comprises 55 sequences on 69 pages.

#### **REMARKS**

Applicants request entry of the substitute paper copy of the sequence listing into the specification of the instant application.
